

COIN LOCK

Quarter-Turn Cam Locks

Key Lockable

Coin Locks (also referred to as Cam Locks) are a commercial locking solution (*similar to Quarter-Turn Locks, but generally smaller in size*) that are available in an extensive range of different configurations. Commonly used to secure cabinets, lockers, office furniture and other similar enclosures.

Features

- Fully assembled
- Variants:
 - Escutcheons - Available in either round or square variants
 - Rotation - Available in either 90° (qtr. turn) or 180° (half-turn) options
 - Locking - Available in a range of popular drive and keying options
 - Cams - Available in a range of popular cam styles, lengths and offsets
 - Housings - Available in a range of housing lengths and styles
 - Fixing - Available in a range of fixing styles

Materials & Finish

- Housing and escutcheons: Zinc, die-cast
- Cams: Zinc, zinc-plated
- Nuts:
 - Zinc, zinc-plated
 - Brass
- Snap-in fixing: Zinc, die-cast
- Horseshoe clips: Zinc, zinc-plated

Accessories & Remarks

- Accessory straight (flat) cams: Available in multiple length options
