

IND-C SERIES | SWITCH UP (v1)

Modular Swing Handle

Stainless Steel

Selectlok's original "Switch Up" modular swing handle system makes choosing, fitting and replacing swing handles even easier. Our new high-quality swing handles and inserts are 100% modular, allowing you access to most popular industry keyed locking solutions via the easily changable inerts without having to replace the entire handle.

Rather than needing to keep a variety of swing handle inventory on hand you only need one swing handle and a handful of inserts to meet the needs of your client's, changing demands.

Features

- Easily Switch Up between pad-lockable, industry keyed barrel or half-euro inserts (*half-euro cylinder sold separately - *non-locking w/o insert*)
- Modular Design: Allows for in-situ swapping of locking mechanism both in the workshop and whilst on out onsite
- Reduces inventory requirements
- Vandal resistant, flush design
- Dust cover included
- Park position with "click"
- Semi flush
- IP65 rated
- Suits: Rod Latch Control Mechanism

Materials & Finish

- Handle and base: Stainless steel 316, polished
- Dust cover: Stainless steel 316, polished
- Shaft: Stainless Steel 316
- Rear insert cover: Nylon

Accessories & Remarks

- Cams and roller cams: Available in various "H" dimensions
- Suits: Rod latch control mechanism (*with*)
 - Square quick-fit rod stubs (HMS103C-1-1)
 - Round rod stubs (HMS103C-1-1-R)
- Boss kits: *Sold separately*
 - IND-C Boss kits, convert flat rod capable handles into standard cam capable handles. (*Cam purchased separately*)
 - 360° angle of rotation - Rectangular boss *without* stopper and shaft adapter (PI5285-KIT)
 - 180° angle of rotation - Rectangular boss *with* stopper and shaft adapter (PI5285-KIT-1)
- Shaft spacers: *Sold separately*
- Shaft spacers to suit: 2.5-3.5mm door material thickness (PI5285-06)

Suits: doors/enclosures designed around a Symmetrical IND-C cutout (*Two x 25mm x 50mm rectangle holes with a 50mm gap between*)

**Not compatible with standard Selectrix/Selectlok F-cutout and/or S-cutouts.*

IND-C SERIES | SWITCH UP (v1)

Modular INSERTS

Stainless Steel

Features

- Easily Switch Up between pad-lockable, industry keyed barrel or half-euro inserts *(half-euro cylinder sold separately)*
- **Modular Design:** Swap over locking inserts in the field with just a screwdriver
- **Reduces inventory requirements:** Buy bulk swing handle quantities and change the locking inserts as needed
- **Insert compatibility:** Can also be used in Millennium® series **Switch Up (v1)** swing handles *(zinc, chrome plated)*
 - Custom inserts can be designed on request *(subject to additional cost, MOQs and lead-times)*
- **Environmentally friendly:** if the locking mechanism breaks, just replace the insert, not the whole handle
- IP65 rated

Materials & Finish

- Insert housing: Stainless steel 316
