

## BH SERIES

### Modular Bridge Door Handle

(U-Shape)

#### Features

- Modular handle with Ø30mm tube/pipe in various lengths
- The Ø30mm Dia of the tube guarantees a sure & firm grip
- Precise & tight fit of the tube into the middle & end support bases
- Fasten via M8 (hex.) nuts/bolts (**not supplied**)
- When calculating total assembled length, add +64mm to tube/pipe (L=)
- Suitable for either vertical or horizontal applications

#### Materials & Finish

- Support base - end: PA6, black (PA+GF)
- Support base - middle: PA6, black (PA+GF)
- Ø30mm tube/pipe: Mild steel, black powder coated

#### Remarks

- Longer length handles/pipes available upon request
- Steel pipe can be cut to allow shorter length handles combinations
- "A" measurement: (A=) denotes distance between the hole centres on the end support bases when assembled

#### Applications

- Camper trailers, caravans & RVs
- Marine & luxury yachts
- Large electrical/HV enclosures & doors
- Power generation units
